1804-1812 Kasemraj Rd., Klongtoey,  
Bangkok 10110 Thailand

A wide-angle, high-angle photograph of a busy container port at night. The scene is illuminated by the warm yellow lights of numerous gantry cranes and the white lights of several large container ships docked at the piers. The water reflects the lights, creating a shimmering effect. In the background, the dark blue sea meets a clear night sky. The overall atmosphere is one of industrial activity and global connectivity.
